MOHAMED MAHMOUD

DATA ENGINEER

01114070885 | pkmohamed22@gmail.com| Alexandria, Egypt | www.linkedin.com/in/mohamed-mahmoud-de/

CAREER SUMMARY

Innovative and detail-oriented Data Engineer with hands-on experience in data pipeline development, database architecture, and automation systems. Proven expertise in Python, JavaScript, SQL, and cloud technologies (AWS, Spark). Demonstrated ability to design scalable solutions, having built 100+ Discord bots including an AI-powered bot generation platform. Strong foundation in software engineering principles with practical experience in both data engineering and full-stack development.

EDUCATION

Software Industry and Multimedia (SIM) | Faculty of Science, Alexandria University 2023-2027
High School Diploma | Victoria College | Graduated 2011-2023

CERTIFICATES

Python Programming for AI | Alexandria University 2024
Database Fundamentals | Information Technology Institute (ITI) 2025
Learn Java Course | Codecademy 2024
Code Foundations Skill Path | Codecademy 2023
Learn How to Code Course | Codecademy 2023

TECHNICAL SKILLS

Coding | Python, Java, JavaScript, C#, SQL, Node.js, Express.js | Database | MongoDB, Database Design | Cloud & Big Data | AWS, Apache Spark | Software Development | OOP, Data Structures, Game Programming | Tools | Git/GitHub, Unity, Microsoft Office, Spreadsheets

WORK EXPERIENCE

Data Engineer Intern | DEPI (Digital Egypt Pioneers Initiative) Present

- Contributing to the design and implementation of scalable data pipelines and ETL processes using Apache Spark
- Optimizing database performance and data architecture in cloud environments (AWS)
- Collaborating with senior engineers to translate business requirements into technical data solutions

Customer Service Representative | Teleperformance | Jul 2025 – Oct 2025

- Managed customer data using CRM systems and tracked case resolution metrics
- Analyzed feedback data to identify trends and improve service quality
- Developed strong communication skills in a fast-paced, data-driven environment

Data Entry Supervisor | Target for Marketing and Collection 2023 - 2024

- Supervised data entry operations ensuring accuracy and integrity of large datasets
- Implemented quality control procedures that reduced data errors and improved efficiency
- Trained team members on database management and data validation techniques

Freelance Discord Bot Developer | Self-Employed 2022 - 2023

- Architected and deployed 100+ custom Discord bots including moderation, music, and automation systems
- Developed Botify – an AI-powered platform that automatically generates custom Discord bots for clients
- Implemented secure payment gateways, AI integration, MongoDB databases, and encryption systems
- Built RESTful APIs using Node.js and Express.js for seamless bot-client interactions

PROJECTS

Botify | AI integration, MongoDB, JavaScript, Node.js

- AI-powered Discord bot generator with payment gateway
- A discord bot that creates discord bots for clients using AI
- Encryption system to secure client data
- MongoDB for Database

Five Nights at Faculty of Science – FNAF-inspired horror puzzle game using Unity and C#

- Collaborated with university team to develop a horror-puzzle game inspired by Five Nights at Freddy's
- Implemented immersive audio-visual elements including dynamic lighting and jump-scare sequences
- Applied software engineering principles including OOP design patterns and version control
- Successfully delivered project as part of academic coursework, demonstrating ability to work under deadlines

TAWSEEL – University Transportation Web Application **|** HTML, CSS, JavaScript, Web Development

- Developed a comprehensive web-based transportation system designed specifically for university students and professors
- Implemented interactive mapping features to display designated pickup points across campus and surrounding areas
- Created dynamic scheduling system displaying real-time bus timings, routes, and availability
- Designed responsive user interface ensuring seamless experience across desktop and mobile devices
- Applied frontend best practices to ensure accessibility and ease of use for diverse academic community

VOLUNTEER WORK

Volunteer at Maaedat Farha
